Front Bumper	~74 × 13 in	~7.0	—	—

Total material (incl. 15% waste allowance): ~131 sq ft

Sizes are template-derived estimates — the shop measures the vehicle before ordering film.

Style & ideas

Aggressive - A bold cohesive GRADIENT wrap that flows gloss black into cyan across the entire vehicle - not flat color blocks. Glossy, high-shine finish (NOT matte, NOT flat). The black-to-cyan gradient is continuous and consistent across every panel, aggressive and premium. The Alpha Wolf logo sits on both front doors and the hood. - Alpha Wolf is a marine / off-road brand. The whole vehicle is ONE continuous gloss-black-to-cyan gradient - keep it cohesive and glossy across every panel.

Add-ons & install notes

Material	Premium cast vinyl
Window tint	Front side windows: 50% VLT (legal in GA)
Extras	Pinstripe / accents

Customer's vehicle (condition notes)
